ROHITH INNAMURI

Warangal, Telangana — 9182616996 — innamurirohith5@gmail.com
LinkedIn — GitHub — Credly

ABOUT ME

Computer Science student with strong interest in software development and problem solving, seeking a Internship opportunity more over ex-AI intern @istudio. Skilled in Python, HTML, CSS, and JavaScript with experience developing responsive web applications and academic projects. Eager to apply technical knowledge, learn industry practices, and contribute to innovative solutions in a collaborative environment.

CAREER OBJECTIVE

Motivated Computer Science (AI & ML) undergraduate with strong hands-on exposure in Artificial Intelligence, Data Analytics, Cloud Computing, Full-Stack Development, Cyber Security.

EDUCATION

B.Tech – Computer Science Engineering (AI & ML) *CGPA: 8.1*
SR University, Warangal *Expected 2028*
3rd Year — Telangana

TECHNICAL SKILLS

Programming & Tools: Python, SQL, Excel, Git, GitHub
AI & GenAI: Prompt Engineering, Copilot, AI Agents, ChatGPT, Automation
Data & BI: Data Visualization, Business Analytics, Dashboards, Big Data
Cloud: AWS Cloud Foundations, Cloud Web Application Builder
Cyber & Networking: CCNA, Cyber Security Foundations
Web & Full Stack: HTML, CSS, Full-Stack App Development

PROFESSIONAL CERTIFICATIONS (SELECTED HIGHLIGHTS)

- Oracle – Agentic AI Certified Foundations Associate
- Microsoft – Azure AI Fundamentals
- AWS Academy – Cloud Foundations & Cloud Web Application Builder
- Google – Generative AI, Git & GitHub
- Coursera – Full-Stack & GenAI Web Development
- Cisco – CCNA Introduction to Networks
- (+ many more enterprise AI & analytics credentials)

PROJECTS

Handwritten Digit Recognition System *(Python, CNN, TensorFlow, Flask)*

- Developed a handwritten digit recognition system using Convolutional Neural Networks (CNN).
- Trained the model on the MNIST dataset to recognize handwritten digits from 0 to 9.
- Integrated the trained model with a Flask web application for real-time digit prediction.

Customer Sentiment Analysis System *(Python, NLP, TF-IDF, Multinomial Naive Bayes)*

- Developed an NLP-based system to analyze customer reviews and classify their sentiment.
- Applied text preprocessing, TF-IDF feature extraction, and Multinomial Naive Bayes for sentiment classification.
- Built a system to identify customer feedback as positive or negative.

STRENGTHS

Analytical Thinking
Fast Learner
Team Collaboration
Automation Mindset
Persistence & patience
Curious to learn advanced technologies
